Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or suggest "the washer is a flat ring ... to be bonded by a user to a surface" in combination with the remaining claim elements as set forth in claim .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Regarding the 1,068,549 reference, the suggestion that "connection could also be accomplished ... by simply putting it on the front mount periphery of the lens" does not provide any suggestion that a flat ring is used. Further, the adapter of this reference is removably attached and not designed for being bonded to the camera.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David M. Gray whose telephone number is 571-272-2119. The examiner can normally be reached on M-T 7:00-5:30.
